If a corresponding consent has been requested (e.g. consent to the storage of cookies), the processing is carried out exclusively on the basis of Art. 6 (1) a GDPR; this consent can be revoked at any time.

As far as other cookies (e.g. cookies for the analysis of your surfing behavior) are stored, these will be treated separately in this Privacy Policy.

The data collected during registration is stored by us for as long as you are registered on this website and is subsequently deleted. Legal retention periods remain unaffected.

Processing of data (customer and contract data)

We collect, process and use personal data only to the extent necessary for the establishment, arrangement or change of the legal relationship (inventory data). This is done on the basis of Art. 6 (1) b GDPR, which permits the processing of data for the fulfillment of a contract or pre-contractual measures. We collect, process and use personal data about the use of this website (usage data) only to the extent necessary to enable or invoice the user for the use of the service.

The collected customer data will be deleted after completion of the order or termination of the business relationship. Legal retention periods remain unaffected.

Data transfer upon conclusion of contract for online shops, dealers and dispatch of goods

The basis for the data processing is Art. 6 (1) b GDPR, which permits the processing of data for the fulfillment of a contract or pre-contractual measures.

5. Analysis tools and advertising

Google Analytics

This website uses functions of the web analysis service Google Analytics. The provider is Google Ireland Limited ("Google"), Gordon House, Barrow Street, Dublin 4, Ireland.

Google Analytics uses so-called "cookies". These are text files saved to your computer that enable an analysis of your use of the website. The information generated by the cookie about your use of the website is generally transmitted to and stored by Google on servers in the United States.

The storage of Google Analytics cookies and the use of this analysis tool is performed on the basis of Art. 6 (1) f GDPR. The website operator has a legitimate interest in analyzing user behavior in order to optimize both its website and its advertising. If a corresponding consent has been requested (e.g. consent to the storage of cookies), the processing is carried out exclusively on the basis of Art. 6 (1) a GDPR; this consent can be revoked at any time.

IP anonymization

We have activated the IP anonymization function on this website. This will cause your IP address to be truncated by Google within Member States of the European Union or in other countries party to the Agreement on the European Economic Area before being transmitted to the USA. Only in exceptional cases is the full IP address first transferred to a Google server in the USA and truncated there. Google uses this information on behalf of the operator of this website for the purpose of evaluating your use of the website, compiling reports on website activity for website operators and providing them other services relating to website activity and internet usage. The IP address that your browser conveys within the scope of Google Analytics is not associated with any other data held by Google.

Browser plugin

You may refuse the use of cookies by selecting the appropriate settings on your browser, however please note that if you do this you may not be able to use the full functionality of this website. In addition, you can prevent the transmission of cookie-generated data (including data related to the usage of the website and your IP address) to Google as well as the processing of this data by downloading and installing the browser plug-in available under following link: <https://tools.google.com/dlpage/gaoptout?hl=de>.

Objection to data collection

You can block the collection of data by Google Analytics via the following link. This will place an opt-out cookie on the computer, which prevents the future collection of your data when visiting this website: [Deactivate Google Analytics](#).

For more information on how Google Analytics is handled, please Google's privacy policy: <https://support.google.com/analytics/answer/6004245?hl=de>.

Order processing

We have concluded a contract with Google for processing and fully implement the strict requirements of the German data protection authorities for the use of Google Analytics.

Storage duration

User and event-level data stored by Google that is linked to cookies, user IDs or advertising IDs (e.g. DoubleClick cookies, Android advertising ID) is anonymized or deleted after 14 months. Details can be found under the following link: <https://support.google.com/analytics/answer/7667196?hl=de>

Google Analytics Remarketing

This website uses the the functions of Google Analytics Remarketing in connection with the cross-device functions of Google AdWords and Google DoubleClick. The provider is Google Ireland Limited ("Google"), Gordon House, Barrow Street, Dublin 4, Ireland.

This function enables the advertising target groups created with Google Analytics Remarketing to be linked with the cross-device functions of Google AdWords and Google DoubleClick. In this way, interest-related, personalized advertising messages that were adapted to you based on your previous usage and surfing behavior on one device (e.g. mobile phone) can also be displayed on another of your devices (e.g. tablet or PC).

Thomas-Krenn.AG

Once you give your permission, Google will link your web and app browsing history to your Google account for that purpose. This way, the same personalized advertising messages can be delivered to every device you sign in to with your Google account.

To support this feature, Google Analytics collects Google authenticated user IDs that are temporarily linked to our Google Analytics data to define and create target groups for the cross-device ads.

You can permanently object to cross-device remarketing/targeting by disabling personalized advertising by following this link: <https://www.google.com/settings/ads/onweb/>.

The summary of the data collected in your Google account is based solely on your consent, which you can submit or revoke to Google (Art. 6 (1) a GDPR). For data collection operations that are not merged into your Google account (for example, because you do not have a Google account or have opposed the merge), the collection of data is based on Art. 6 (1) f GDPR. The legitimate interest arises from the fact that the website operator has an interest in the anonymized analysis of website visitors for advertising purposes.

For more information and Google's data protection policies, please see Google's privacy policy: <https://policies.google.com/technologies/ads?hl=de>.

Use and application of DoubleClick

The person responsible for processing has integrated components of DoubleClick by Google on this website. DoubleClick is a brand of Google, under which mainly special online marketing solutions are marketed to advertising agencies and publishers. DoubleClick by Google is operated by Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043 94043, USA. DoubleClick by Google transfers data to the DoubleClick server with every impression, click or other activity. Each of these data transfers triggers a cookie request to the browser of the user in question. If the browser accepts this request, DoubleClick places a cookie on the user's device. Cookies have already been explained above. The purpose of the cookie is to optimize and display advertisements. The cookie is used, among other things, to place and display user-relevant advertisements and to create or improve reports on advertising campaigns. Furthermore, the cookie serves to avoid multiple insertions of the same advertisement. DoubleClick uses a cookie ID that is required to complete the technical process. For example, the cookie ID is required to display an ad in a browser. DoubleClick can also use the cookie ID to track which ads have already been displayed in a browser to avoid repeat ads. DoubleClick also uses the cookie ID to capture conversions. Conversions are recorded, for example, if a user has previously seen a DoubleClick advertisement and the user subsequently makes a purchase on the advertiser's website using the same browser. A DoubleClick cookie does not contain any personal data. However, a DoubleClick cookie may contain additional campaign identifiers. A campaign identifier is used to identify the campaigns with which the user has already been in contact.

Each time one of the individual pages of this website is called up, which is operated by the data controller and on which a DoubleClick component has been integrated, the browser on the user's device is automatically caused by the respective DoubleClick component to transmit data to Google for the purpose of online advertising and billing of commissions. As part of this technical process, Google becomes aware of data that Google also uses to generate commission statements. Among other things, Google can know that the user has clicked certain links on our website. The user can prevent the placement of cookies by our website at any time, as already described above, by changing the appropriate settings in the browser used to permanently object to the placement of cookies. Such browser settings would also prevent Google from placing a cookie on the user's device. In addition, cookies already placed by Google can be deleted at any time via the browser or other software programs. Further information and the applicable privacy policy for DoubleClick by Google can be found at <https://www.google.com/intl/de/policies/>

Bing Ads

We use technologies from Bing Ads (bingads.microsoft.com) on this website. These are provided and operated by Microsoft Corporation, One Microsoft Way, Redmond, WA 98052-6399, USA ("Microsoft"). Microsoft will place a cookie on your device if you have accessed our website via a Microsoft Bing ad. Both Microsoft Bing and the operator can see in this way that someone has clicked on an ad, has been redirected to our website and has reached a previously defined target page (conversion page). We only see the total number of users who clicked on a Bing ad and were then redirected to the conversion page. Microsoft collects, processes and uses information about the cookie from which usage profiles are created using pseudonyms. These usage profiles are used to analyze visitor behavior and to tailor advertisements. No personal information concerning the identity of the user is processed.

If you do not want information about your behavior to be used by Microsoft as described above, you can refuse the placement of the cookie required for this purpose – for instance, by using a browser setting that generally deactivates the automatic placement of cookies. In addition, you can prevent the transmission of cookie-generated data and data relating to your usage of the website as well as the processing of this data by Microsoft by declaring your objection to this under following link: <http://choice.microsoft.com/de-DE/opt-out>. Further information on data protection and the cookies used by Microsoft and Bing Ads can be found on the Microsoft website <https://privacy.microsoft.com/de-de/privacystatement>.

We have concluded a separate agreement with Pardot LLC to ensure that Pardot LLC complies with the EU Data Protection Directive.

Thomas-Krenn.AG

When you visit our website, the Pardot MAS records your click path and creates an individual user profile from it. Cookies are used for this and enable your browser to be recognized. By agreeing to the use of cookies the first time you use our website – by confirming the cookie acceptance banner or by continuing to use our website – you also agree to the use of Pardot cookies.

You can revoke your consent at any time with effect for the future. To do so, please refer to the contact details given at the end of this data protection declaration. In addition, you can deactivate the creation of pseudonymized user profiles at any time by configuring your browser so that cookies from the domain "pardot.com" are not accepted. YouTube with enhanced data protection mode

This website integrates videos from YouTube. The service is operated by Google Ireland Limited ("Google"), Gordon House, Barrow Street, Dublin 4, Ireland.

We use YouTube in enhanced data protection mode. According to YouTube, this mode has the effect that YouTube does not store any information about visitors to this website before they watch the video. However, the enhanced data protection mode does not necessarily exclude the transfer of data to YouTube partners. For instance, whether you're watching a video or not, YouTube connects to the Google DoubleClick network.

As soon as you start a YouTube video on this website, a connection to the YouTube servers is established. The YouTube server is informed which of our pages you have visited. If you are logged into your YouTube account, you allow YouTube to associate your surfing behavior directly with your personal profile. You can prevent this by logging out of your YouTube account.

Furthermore, YouTube can store various cookies on your end device after starting a video. These cookies enable YouTube to obtain information about visitors to this website. This information is used, among other things, to gather video statistics, improve the user experience and prevent fraud. The cookies remain on your device until you delete them.

After the start of a YouTube video, further data processing may be triggered, over which we have no control.

YouTube is used in the interest of providing an appealing presentation of our online offers. This represents a legitimate interest within the meaning of Art. 6 (1) f GDPR. If a corresponding consent has been requested (e.g. consent to the storage of cookies), the processing is carried out exclusively on the basis of Art. 6 (1) a GDPR; this consent can be revoked at any time.

For more information about YouTube's privacy policy, please see their privacy policy at: <https://policies.google.com/privacy?hl=de>.

collection, processing and use of your data will be in accordance with the applicable data protection law and all other legal provisions and that your data will be treated in strict confidence.

Scope and purpose of data collection

If you send us an application, we process your associated personal data (e.g. contact and communication data, application documents, notes taken during job interviews, etc.) to the extent that this is necessary to make a decision on the potential establishment of an employment relationship. The legal basis for this is Sec. 26 of the Federal Data Protection Act (new version) under German law (initiation of an employment relationship), Art. 6 (1) b GDPR (general contract initiation) and – if you have given your consent – Art. 6 (1) a GDPR. The consent can be revoked at any time. Within our company, your personal data will only be passed on to persons who are involved in the processing of your application.

If the application is successful, the data submitted by you will be stored in our data processing systems on the basis of Sec. 26 Federal Data Protection Act (new version) and Art. 6 (1) b GDPR for the purpose of carrying out the employment relationship.

Data retention period

If we are unable to make you a job offer, you reject a job offer or withdraw your application, we reserve the right to keep the data you have submitted with us for up to 6 months from the end of the application procedure (rejection or withdrawal of the application) on the basis of our legitimate interests (Art. 6 (1) f GDPR). The data is then deleted and the physical application documents deleted. The storage of data serves in particular as evidence in the event of a legal dispute. If it is evident that the data will be required after the 6-month period has expired (e.g. due to an impending or pending legal dispute), the data will only be deleted when the purpose for further storage no longer applies.

A longer storage period can also take place if you have given your consent (Art. 6 (1) a GDPR) or if legal storage obligations prevent deletion.

Admission to the applicant pool

If we do not make you a job offer, there may be the possibility of including you in our pool of applicants. In the event of admission, all documents and details from the application are transferred to the applicant pool so that you can be contacted in the event of suitable vacancies.

Inclusion in the applicant pool is done exclusively on the basis of your expressed consent (Art. 6 (1) a GDPR). Giving consent is voluntary and has no relation to the ongoing application procedure. **The person concerned can revoke their consent at any time.** In this case, the data will be irrevocably deleted from the applicant pool unless there are legal reasons for retention.

The data from the applicant pool will be irrevocably deleted at the latest two years after consent has been given.
