

IOMEGA® iCONNECT WIRELESS DATA STATION

THE SIMPLEST WAY TO BRING ALL OF YOUR DESKTOP & PORTABLE USB STORAGE INTO THE NETWORK

- » Central location for sharing files between all PCs on your network
- » Remote access to your photos, videos & other files via personal web address from anywhere in the world
- » Built-in UPnP™ AV Media Server (DLNA® certified) & iTunes™ Server
- » QuikTransfer button makes it easy to transfer data between drives without the need of a PC
- » Protection Suite offers backup and anti-virus protection software
- » Torrent download support for peer-to-peer file sharing
- » Three year product warranty with registration

CONNECT, SHARE, AND ACCESS YOUR FILES SECURELY FROM ANYWHERE IN THE WORLD

SHARE CONTENT

- » Built-in UPnP™ AV Media Server (DLNA® certified) and iTunes™ Server allows content to be easily shared between computers and any digital media adapter such as game consoles, digital picture frames or networked TVs.
- » Share a printer with others on your network.
- » Remotely access your content from anywhere with an internet connection.
- » Torrent download for peer-to-peer file sharing.

EASY TO USE AND SET UP

- » Simple three-step setup plug it in, install the software, and then add your USB storage (additional steps required for wireless configuration).
- » Friendly interface makes it easy for anyone to use.
- » Wireless connectivity allows you to place the iConnect in the most convenient location without having to run another cable.
- » Automatically upload photos from digital cameras via a USB port (Picture Transfer Protocol).

AUTOMATIC DATA PROTECTION

- » Iomega iConnect includes Trend Micro™ Internet Security (PC), Iomega QuikProtect, EMC® Retrospect® Express Backup software, and MozyHome™ Online Backup service to protect your data and your computer (software available via download).
- » Replicate your data through the Iomega iConnect between external USB drives, or to another network target using copy jobs.
- » One touch file copy via the QuikTransfer button.
- » Apple® Time Machine® support.

FLEXIBLE & POWERFUL

- » Fast processor so you can save & access large media files quickly.
- » Fast network connection with wired Gigabit Ethernet or wireless (802.11b/g/n) configuration.
- » Low power consumption and an Energy Star power supply.

iomega®
iConnect

SET YOUR HARD DRIVES FREE!

The Iomega® iConnect Wireless Data Station is a simple way to bring all of your desktop and portable USB storage into your network. Plug your external USB drives or USB thumb drives (any brand) into the Iomega iConnect device and they are automatically connected to and accessible on your network. Remote access allows you to connect, share, and access your files securely from anywhere in the world via the Internet. Wireless connectivity allows you to place the Iomega iConnect device in the most convenient location in your home without having to run another cable. Taking backup data off-site for disaster recovery has never been easier. Simply back up all your networked computers through the Iomega iConnect device, and then take your hard drive off-site for safekeeping. The Iomega iConnect device truly makes your USB drives “smart” and includes the ultimate set of advanced media features, such as the DLNA®-certified UPnP® AV media server, and iTunes™ server so that content can be easily shared between computers and any other digital media adapters such as game consoles, Iomega ScreenPlay products, digital picture frames or networked TVs. Picture Transfer Protocol, torrent download compatibility, and the Cooliris™ slide show plug-in round out the advanced media features. Embedded RSA® BSAFE® encryption for protected installs and upgrades. Supports PC, Mac® and Linux® clients. Three year warranty with product registration.
