

## Welcome to WebhostingDay 2006

As web hosting companies, we provide the real backbone of the Internet to help link people spread across the world. While our ever more convergent networks enable faster and more focused communications for our customers, it is critical for us in the industry to converge our own network.

Hence, I am pleased to invite you to **WebhostingDay 2006** – the key networking event for the European web hosting industry.

In the footsteps of the successful launch in 2004, **WebhostingDay 2006** will be held on March 28 in Brühl near Cologne, Germany. We join Microsoft and other international partners to welcome you to a one-day event with stellar presentations, interesting workshops, and ample opportunities for networking.

I shall look forward to meeting you in person on March 28.

With best regards,

Thomas Strohe  
Member of the Board intergenia AG

Sign up now until  
**March 20th:**

## Program and Venue

**WebhostingDay 2006** is organized into three sections offering information stemming directly from the industry:

**main.FORUM** – The main auditorium: Decision-makers from international web hosting companies report on their experiences and visions.

**work.SHOP** – Information from pros for pros: Partners of the WebhostingDay event present interesting solutions and products.

**hosting.FAIR** – The fair for web hosters: Make direct contact with interesting firms and exhibitors to discuss web hosting issues.

The Phantasia Land Event Center in Brühl near Cologne is the venue for **WebhostingDay 2006**. This extraordinary location is perfect for a meeting in an extremely modern setting. Fabulous scenes for the supporting program and exquisite catering climax with the planned ConneXion party – so you can celebrate through the night and have abundant opportunities to network.

Phantasia Land is located roughly 15 km from the city center of Cologne. It is reachable by car via a separate highway exit. You can also get there easily from the Brühl train station or the Cologne-Bonn airport.
